[News](#) | **Geniatech's first S905X & S912 set-top box with Android TV OS (Google Certified)**

Geniatech's first S905X & S912 set-top box with Android TV OS (Google Certified)

Sep.02,2017 | Emily

Geniatech currently has two products that support **Android TV OS** with Google Play GMS certification:

ATV 495 Max, a high performance Amlogic S905X Quad Core Android 6.0 TV OS Set-top Box.

ATV 598 Max, a high performance Amlogic S912 Octa Core Android 6.0 TV OS Set-top Box.

This means Geniatech's set-top box have the features of the Android TV OS and legal access to Google Play Store .

Android TV is a smart TV platform developed by Google. It has a built-in Android operating system that creates an interactive TV experience through a 10-foot user interface. It is more or less similar to that of a Android phone operating system.

Android TV can be built both into TVs and into stand-alone digital media players. Here are the advantages of Android TV OS:

1. Discover new apps

Users have access to the Google Play Store to download Android apps. The list of apps include Google Play, YouTube, Netflix and many others.

2. Google Cast

Android TV also supports Google Cast, the technology behind Google's media player Chromecast that allows a mobile device to be used to select and control media playback on a TV. It can now cast TV shows and movies from phone, tablet or laptop to

Android TV.

3. Gaming experience

Users can also play games by casting them on the TV screen while they still continue to control them on the phone.

4. Voice search

The platform emphasizes voice search to search your favourite content by giving simple voice commands. This makes the search process quicker and more efficient.

5. Remote Control

Besides the physical remote bundled with the TV, there are Android TV remote apps available on the Google Play Store. These Android TV Remote Control apps offer full control of the TV on the smartphone itself. Users can easily navigate, control the volume, adjust settings and also control other devices connected to the TV.

If you want to know more about our products, enjoy these features and have a wonderful TV experience, welcome to [contact Geniatech](#).
